TRAGEDY RESPONSE

This past weekend, we were all horrified to learn of the racially motivated attack that took the lives of 10 people at a supermarket in Buffalo, New York. As leaders in the national security industry, we understand the threats our country faces from foreign adversaries every day. These acts of violent extremism from within are frightening. No one should live in fear because of who they are.

Sadly, these events occur too often in our country. Communities where our Peraton colleagues live and work are among those directly impacted. Whether you have been personally touched by violence or you are watching these incidents unfold from afar, it is alarming and stressful. Our employee assistance program (EAP) is available to you at no cost, 24/7. Please use the information below to reach out for help.
